

# RECREATION FACILITIES

Skelton Brumwell & Associates provides planning, engineering and environmental services for private and public sector recreational facilities. Our services include the preparation of Recreational Facility Master Plans and Site Plans, preparation of functional servicing reports, sewage and water servicing, site grading, stormwater management, traffic studies, engineering plans and contract documents, site inspection and contract administration. We prepare Environmental Impact Studies and facilitate Environmental Compliance Approvals.

We have provided services for many types of recreational facilities including:

- Water parks
- Golf courses
- Ski resorts
- Campgrounds
- Motels/hotels
- Municipal recreational complexes
- Parks, arenas and swimming pools

We coordinate teams of design professionals for complete project design.
